

Dear Nike Sustainability Team,

At Bell Material Solutions, we admire Nike's leadership in sustainability and innovation. We believe our work — transforming recyclable and surplus materials into valuable resources — can directly support Nike's vision of a circular future.

Our approach is collaborative and practical. By partnering with Nike, we can help reduce waste, minimize carbon footprints, and create measurable ESG outcomes that resonate with consumers and communities alike.

We'd love the opportunity to start a conversation about a pilot program, sharing our expertise in material repurposing and exploring ways we can deliver both environmental and business value to Nike.

Thank you for considering this partnership. We look forward to the chance to connect.

Sincerely,

Richard and Amber Bell

Founders, Bell Material Solutions
